

September 12, 1932.

Mr. F. W. J. Meyer,
Duchesne, Utah.

Dear Sir:

RE: UINTAH DIST.

I have your letter of September 10 and from the information you give it would seem that your proper course is to take the matter of flooding your lands up locally.

There is a law prohibiting flooding and damage to property by irrigators but the State Engineer is no way involved or given any authority in that connection.

Yours very truly,

State Engineer.
